- ✓ A new Quiz format about the latest celebrity news: films, fashion, music and your favorite celebrities.
- ✓ 25 minutes, 4 rounds, fast paced and interactive!
- ✓ Are you an entertainment news expert?

Round 1: Both contestants try to solve a picture puzzle. Whoever guesses first wins \$10 and control of the round.

The winner then answers as many short entertainment news questions as possible, receiving \$10 for each right answer, while their opponent attempts to solve another picture puzzle. When the opponent guess right, they take control.

Questions are asked using video fragments, music, sound bites, etc. (Maximum of 15 questions)

Round 2: Again, both contestants try to solve a picture puzzle. The winner gets \$10 and control of the round.

The winning contestant chooses a category from the grid: Movie, Music, Fashion or Celebrity; all featuring 4 celebrities! Each question is introduced by a video item:

- #ThrowBack
- Love Life Lowdown
- Fashion Confession
- Who Said That?
- Best Kept Secrets
- etc.

Each right answer earns \$10, and a contestant who finishes a full category takes an additional \$20. But when the other contestant guesses the next picture puzzle, it's his or her turn. (Maximum of 8 questions)

- Studio based
- 2 contestants opposite each other
- 4 rounds
- All questions available
- All video items available

Round 3: One last time, both contestants try to solve a picture puzzle. The winner scores \$10 and control of the round.

The winner is allowed to choose a celebrity from the grid, and needs to answer a question about the star in each of 4 categories. Each question is introduced by a video item, music, sound bites, etc.

Every right answer earns \$10, and a contestant who finishes all 4 categories about a single celebrity takes an additional \$20. But in the meantime, when their opponent guesses the next picture puzzle, it is his or her turn, and the answer game for the other contestant is interrupted.

Round 4: Double or nothing.

The contestant with the highest score can buy 'tiles' of a covered picture. Each tile will cost him \$10, and uncovering the full picture would be \$160. Every tile also gives the contestant one additional second to solve the puzzle. If the player wins, they double the amount of money spent. If the contestant can't solve the puzzle in time, their opponent gets to see the picture as well. They can also buy extra tiles, and if they guess the picture, they win the money their opponent spent as well...

The player with the highest end score is the winner, and goes on to the next episode
