

MustHave 01

We look at the coolest gadgets on the market, ranging from personal submarines, to most expensive supercars on the planet, to everything that flies.

Exclusive 01

We meet some of the most interesting craftsmen out there. Like the car manufacturers at Maserati or a bladesmith who makes knives worth thousands of dollars a piece.

MustDo

What are the coolest activities one can engage in when money isn't a problem? Skydiving, racing, swimming with sharks, you name it, we've got it!

Babe of the Week

Let's face it; not all women are equally attractive. So we went out of our way to search the globe for the most beautiful ones we could find. Let's drool over the hottest pieces of eye candy!

BREAK

MustHave 02

Like the first MustHave segment, there's plenty more where that came from. We really have the weirdest things in our catalog, ranging from desserts worth thousands of dollars to the most unique handcrafted Swiss watches.

Special

In this segment we discuss the coolest trends and upcoming possibilities. When can we go on holiday to Mars? What does the future for crypto currency look like? And what the hell are NFTs?

Workout Drill

Just pumping iron doesn't cut it anymore, there are so many different ways to get ripped. How about a virtual reality workout? Or learn to kick ass from an actual martial arts grandmaster?

Exclusive 02

And last but not least, another exclusive interview with professionals who make the most fascinating gadgets, cars, yachts and well... anything that moves fast. They dedicated years of their lives to make the most perfect objects money can buy.
